OBJECTIVE

Product Manager with 7+ years of experience building payroll, finance, and compliance-heavy B2B SaaS platforms across India and global markets (US/EU). Proven expertise in India payroll, global payroll (EOR), financial workflow modeling, compliance-first systems, and scalable platforms. Strong execution-focused with experience owning multi-quarter roadmaps, driving payroll correctness, and partnering closely with Finance, HR, Legal, and Engineering teams. Expertise in AI/ML integration, workflow automation, Agile delivery, and leading cross-functional teams.

EDUCATION

IIM, Lucknow | MBA | 2019-2021

NIT, Nagpur | B.Tech | 2012-2016

WORK EXPERIENCE

Bluspring Enterprises Ltd. | Bangalore | June 2025 – Present

Product Manager - Digital Initiatives

- **Blupay Platform Development:** Initiated rollout of an in-house India payroll system, enabling accurate and compliant payroll processing for 85,000+ associates across five business units.
- **System Integrations:** Integrated Salesforce CRM and internal systems to streamline employee onboarding, automate user management, and ensure data integrity across Sales & Finance workflows.
- **Workflow Standardization:** Collaborated with HR, Finance, and IT teams to map and standardize end-to-end payroll workflows (earnings, deductions, statutory components, approvals), creating a scalable and compliance-ready foundation.
- **Analytics Enablement:** Developed and deployed initial payroll and finance analytics dashboards, providing real-time visibility into payroll costs, variances, and operational metrics to support data-driven decision-making.

Avance Consulting Services (Wisestep) | Hyderabad | Sep 2023 – June 2025

Associate Product Manager

- **EOR Platform Development:** Built a no-code Employer of Record (EOR) and global payroll platform supporting US and EU markets, achieving €275,000+ ARR in 6 months. Reduced compliance risk by 40%, cut onboarding time by 30%, and scaled to 500+ clients.
- **Product Ownership:** Led development of B2B/B2C payroll platforms, reducing payroll processing time by 40% through automation and improving payroll accuracy to 99.5%+. Partnered with Engineering, Design, Sales, and Customer Success to own roadmap and delivery.
- **API Integration:** Led US payroll integration with Paychex, reducing payroll processing time by 50% while ensuring compliance, correctness, and seamless payroll execution for global customers.
- **AI-Powered Reconciliation:** Built ML-assisted payroll and financial reconciliation workflows, reducing manual effort by 60%, achieving 99.8% accuracy, and saving 15+ hours per week for Ops and Finance teams.
- **Workflow Automation:** Implemented n8n automation solution with AI agents for scheduling, emails, and payments reducing manual tasks by 70%.
- **AI Integration:** Integrated ChatGPT with ATS, cutting recruiter workload by 30% and improving candidate assessment efficiency by 25%. Leveraged NLP to enhance search functionality.
- **User Research:** Conducted 50+ user interviews, identifying pain points that boosted user satisfaction scores by 25%. Implemented A/B testing to optimize UI/UX.
- **Market Analysis:** Identified new market opportunities, expanding the platform's user base by 15% in 6 months. Conducted competitive benchmarking to refine product strategy.

Assistant Product Manager

- **End-to-End Delivery:** Owned product lifecycle for logistics solutions, achieving 95% serviceability improvement and 80% fewer customer cancellations in 12 months. Used data analytics to prioritize features.
- **Scalability Initiatives:** Expanded logistics partners from 4 to 17+ in 6 months, driving 15% revenue growth and 200% service coverage. Implemented API integrations for real-time tracking.
- **Process Optimization:** Reduced order mismatches from 20% to <0.5%, saving ₹1.5+ Crores annually. Built a dashboard to monitor KPIs like delivery accuracy and SLA compliance.
- **Data-Driven Decisions:** Implemented advanced analytics to track KPIs, cutting operational costs by 10% and improving efficiency by 20%. Conducted root-cause analysis to resolve bottlenecks.

Maharashtra Metro Rail Corporation Ltd. | Nagpur | Jun 2016 – Jun 2019

Senior Section Engineer – Procurement & Contract Management

- **Program Management:** Led ₹4,000+ Crores metro rail procurement, managing 30+ stakeholders and 40+ tender documents. Used Agile methodologies to track progress.
- **Cost Efficiency:** Saved ₹3.5+ Crores via contract optimization and halved bid time (60 days → 30 days). Conducted risk assessments to mitigate delays.
- **Digital Transformation:** Implemented GeM portal, saving ₹7 lakhs in office supplies and improving compliance by 30%. Automated workflows using Python scripts.
- **Process Improvement:** Streamlined billing processes, reducing payment processing time by 20%. Developed a vendor management system to track KPIs.
- **Team Leadership:** Managed a team of 5+ procurement specialists, achieving 95% on-time delivery. Conducted training on contract negotiation and risk management.
